"Designing Shady Retreats"

With Jana Milbocker and Joan Butler from Enchanted Gardens

Shady retreats present special challenges for design, plant selection and site preparation. In this lecture, richly illustrated with beautiful photography, we explore a variety of intriguing gardens that will inspire you to create your own shady retreats! We show you design tricks and strategies to light up shady corners, highlight unusual plants that thrive in low-light conditions and illustrate the creative use of art objects, seating and water features.
